

60cm induction hob, 4 cooking zones, 2 multizone Modern Series

£ 499

P604I2M28NV

This 60 cm induction hob is equipped with 4 induction areas. There are 9 power levels, plus a booster for each area that allows even faster cooking. A practical multi slider allows you to control all the cooking zones in a simple and intuitive way. The Multizone function combines two cooking zones to create a single larger zone, allowing the use of large pots or grills.

The hob is equipped with 3 specific functions that set exact temperatures for the interested area. The Melting function set the area at 45°C allowing you to melt food without overcooking it; the Keep Warm function set the area at 70 °C to heat the food without drying it; the Boiling function set the area at 85 °C to bring the water in the pot to a boil in the shortest possible time.
