

60 cm Built-in Panel Ready Dishwasher Sliding Door Modern Series

£ 1.349

DW60S3IBPSS

This Bertazzoni 60 cm fully integrated dishwasher is large enough for up to 14 place settings on three racks, including a height-adjustable upper rack and a multi-functional rack.

The DualSmart Brushless Inverter Motor with a turbidity sensor and dual pump automatically adjusts the wash cycle duration based on the level of soil on the dishes, ensuring efficient and tailored performance. The Smart Auto Dose system automatically dispenses detergent for up to 12 washing cycles, helping you save time, detergent and energy.

Direct Wash nozzles ensure deep cleaning of tall glasses and bottles. Easy Lift makes loading the lower rack effortless.

The durable stainless steel tub is resistant to corrosion and improves heat retention for better washing and drying efficiency. The advanced Auto Clean Filter system minimizes dirt buildup, reducing the need for manual maintenance.

It also features a Side Projection Status Light that discreetly updates the wash cycle status with a sideways beam, avoiding any interference with the kitchen plinth. The six fixing points, two on each side and two on the top, ensure a stable and precise installation.

B energy rated.
