

## 45 cm Slot-in Wine Column Modern Series

£ 3,999

### **RWC45S5TPRS**

Designed to keep your wine at its best, this built-in column wine cellar offers precise control with three temperature zones for red and white wines, cooling between 5°C and 20°C. Featuring zone-dedicated evaporators, a UV light-shielding glass window, and a vibration-free variable speed compressor, it preserves the unique character of your favorite wine and champagne, ensuring optimal storage conditions for each bottle.

Access temperature for each zone and interior lighting settings through the intuitive digital touch control interface which let you select the perfect temperature range.

Designed to allow for elegant configurations of wine cellar, refrigerator and freezer in any desired width.

Bertazzoni built-in column wine cellars are covered by 2-year warranty.
