

## 90cm Built-In Bottom Mount Refrigerator Modern Series

£ 8,499

### REF905BBRPTT/24

Bertazzoni built-in refrigerators are designed, engineered and made in Italy with the highest grade materials and components. The proprietary 'lift & swing' door hinge system makes them the ideal choice for true flush installation as a single unit or side-by-side.

These built-in refrigerators are built to last forever, employing metal and glass inside and out for better temperature management. The lateral airflow system, with dual compressor and evaporator for refrigerator and freezer, reduces cold air loss when opening doors and allows for category-leading interior depth. The internal configuration is designed for maximum flexibility, with 425 L of refrigerator volume and 131 L of FlexMode volume. The FlexMode Refrigerator-Freezer allows to switch the bottom compartment between freezer and refrigerator with one touch. Interior LED lighting on top and sides provide bright interior illumination on all levels with minimal energy consumption. Integrated water filter connected to water line ensures regular production of ice cubes of customizable size.
